Antares  
Air System®

...The perfect exhaust air  
performance for flat roofs

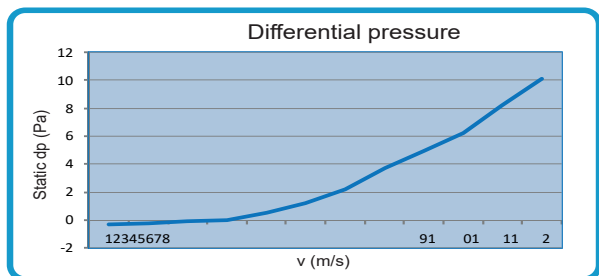

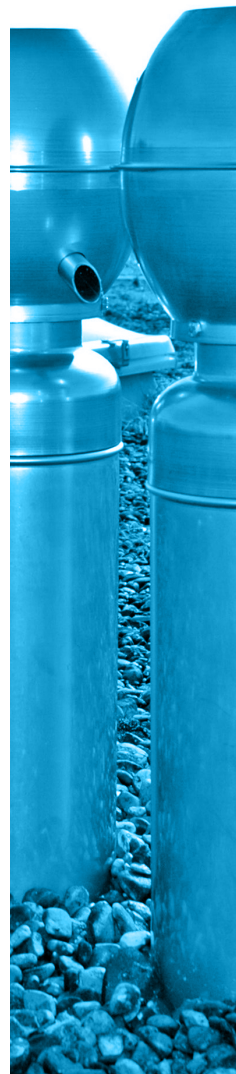

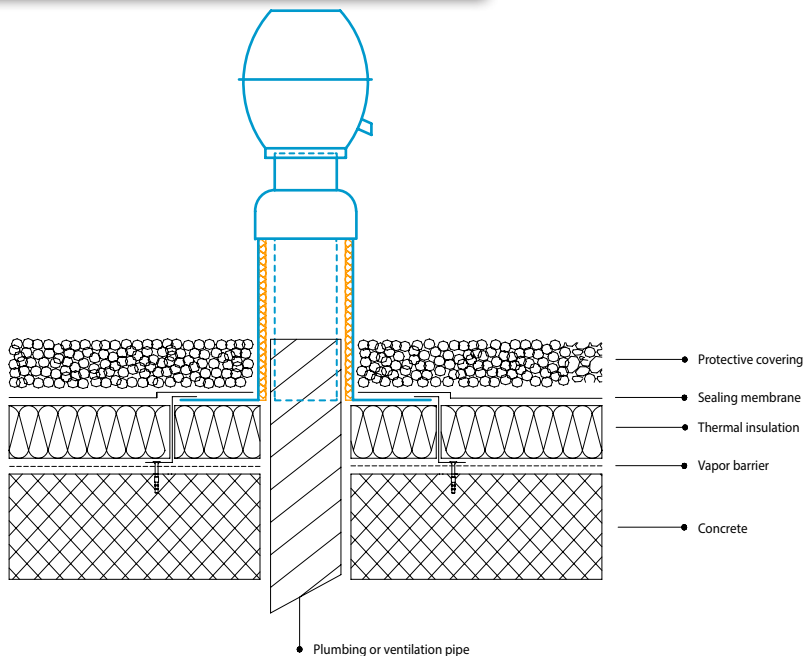

# Antares Air System®

- The perfect exhaust performance for flat roofs

The internationally registered ANTARES Roof Vent is the most versatile among the ventilation hats and has been a proven product in the ventilation sector for years.

The ANTARES is now also available as a complete system for flat roofs:

**Antares Air System®**

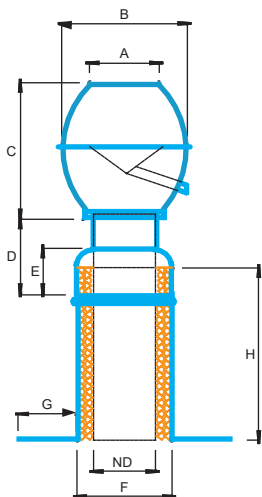

This innovative exhaust solution is made in the materials copper, aluminum, and stainless steel and comprises the following three components:

- ***ANTARES Roof Vent***
- ***Pipe shell made of mineral wool, thermally insulated to 30 mm***
- ***Flashing with riser pipe for flat roofs, welded***

The inner tube of the fan fits precisely into the insulation made of heat-resistant, non-combustible mineral wool, making it extremely compact. This makes the Antares Air System® fully assembled and easy to install.

### Technical Specification

ND	A	B	C	D	E	F	G	H
Ø 80	90	160	180	120	72	140	150	400
Ø 100	110	198	216	120	72	160	150	400
Ø 125	145	236	265	120	72	185	150	400
Ø 150	172	286	308	120	72	210	150	400
Ø 160	145	236	265	120	72	222	150	400

**Antares Air System®** - Another Swiss quality product.
