

# POLLUX

## Roof Vent

The round vent - the all-rounder - delivers unprecedented exhaust performance due to its aerodynamically low-resistance shape. Wherever ventilation is needed, the POLLUX is universally and easily applicable. The inner-mounted shell captures rainwater and allows it to drain through the outlet. Any risk of backflow is eliminated.

With POLLUX, everything really runs smoothly: it ventilates like no other and is aesthetically pleasing.

### Type PMT

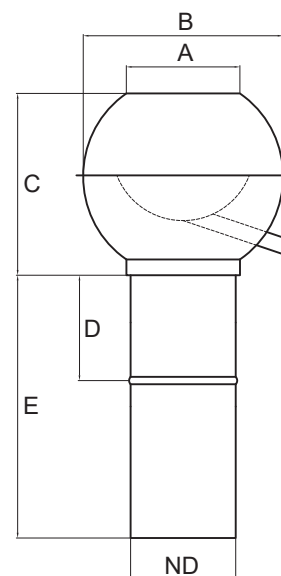

with termination  
funnel and standpipe 250 mm long

ND	A	B	C	D	E	F
100	108	190	165	70	148	164
125	133	220	185	70	148	188
150	158	264	220	70	148	212

### Type POT

with bead  
and standpipe 200 mm long

NW	A	B	C	D	E
100	108	190	165	55	200
125	133	220	185	55	200
150	158	264	220	55	200
